

FOR IMMEDIATE RELEASE:

Sodick - Plustech to Host Connecticut Showcase at Yamazen Inc.

Elk Grove Village, Ill. (August 21, 2023) -- Plustech Incorporated will host an inaugural partner Showcase at the Yamazen Inc. offices located at 35 Holland Drive, in Newington, Connecticut, Wednesday August 30th, and Thursday, August 31st, from 10 AM until 4 PM each day. The event will provide attendees with an exclusive opportunity to experience the latest advancements in injection molding technology, from industry leaders such as Westfall-Technik, Matsui, UMass Lowell, Foster Corporation and more.

The Sodick-Plustech Showcase will serve as a hub for industry professionals on the East Coast, where they will be able witness a collaborative demonstration of Sodick's award-winning, proprietary two-shot V-line™ technology. Attendees will have the unique opportunity to observe the micromolding precision of the GL30A small Sodick Injection Molding Machine (IMM) seamlessly interacting with a high-precision Westfall mold. Sodick also invites guests to "Think BIG," as they get a taste of Sodick's large-scale machines (up to 500+ tons) demonstrating what's possible for customers when it's time to take their molding manufacturing game to the next level.

"We're thrilled to bring the Showcase to the Yamazen location in Connecticut," said Len Hampton, National Sales Manager of Plustech Inc. "This will hopefully be the first of others in various locations around the country, and will allow us to connect with industry professionals to share the most up to date advancements," said Hampton. "By showcasing our machines and collaborating with our esteemed partners, we aim to inspire and educate attendees about the transformative potential of Sodick solutions."

The Showcase reinforces Plustech's commitment to meeting the demands of the injection molding industry and providing exceptional service to its customers. By expanding its reach and hosting events in strategic locations, Sodick creates opportunities to engage, network, and explore the possibilities and partnerships in plastics manufacturing.

-MORE-

Everyone is invited to attend, but since refreshments will be served, Plustech is requesting that potential attendees RSVP by emailing johnmcnamara@plustech-inc.com, or calling 847-490-8130, ext. 1036.
