

**FOR IMMEDIATE RELEASE:**

**Sodick-Plustech to Host Partner Showcase at IACMI in Detroit**  
*Second Stop in a Showcase Series to Focus on Materials*

**Elk Grove Village, Ill. (November ##, 2023)** – Plustech Incorporated will host a Partner Showcase at IACMI - The Composites Institute, located at 1400 Rosa Parks Blvd, in Detroit, Michigan, Tuesday December 12th, and Wednesday, December 13th, from 10 AM until 4 PM each day. Building on the success of the showcase series launched earlier this year in Newington, CT, the event will bring together industry experts from RJG, Beaumont Industries, Polyplastics USA, Moldex3D, and more, to explore the pivotal role of materials in the injection molding process, coupled with a tour of the The Institute for Advanced Composites Manufacturing Innovation (IACMI) facility, courtesy of the Michigan State University Scale-Up Research Facility (MSU-SURF) staff.

The two-day showcase will feature a series of insightful Tech Talks focusing on the diverse world of injection molding materials. From the versatility of thermoplastics to the innovation potential of silicones and composites, the event will serve as a hub for professionals eager to deepen their understanding of materials in the industry.

Prominent speakers from various leading companies within the injection molding sector will share their expertise and insights, providing attendees with a comprehensive view of the latest advancements and best practices. Topics include the unique qualities of a super engineering plastic and its applications in automotive advancements, the complexities of the correlation between simulation and real-world results, and strategies for efficiency gains and waste reduction in addressing the challenge of scrap rates in injection molding. Collectively, these talks underscore Plustech and their partners' commitment to advancing knowledge and pushing the boundaries of innovation.

-MORE-

“We’re excited to continue our Showcase series in Detroit,” said Kohei Shinohara, Vice President of Plustech Inc. “In the vast world of injection molding, understanding the intricacies of materials is key. We’re happy to provide the Michigan area with this opportunity to learn from some of the brightest minds across the industry, all gathered in one place.”

The event extends an open invitation to all industry professionals and enthusiasts. Attendees will have the opportunity to network with like-minded peers, fostering collaborations and exchange of knowledge. All are welcome, but since refreshments will be served, Plustech is requesting that potential attendees RSVP by emailing [BennettHoward@plustech-inc.com](mailto:BennettHoward@plustech-inc.com), or calling 847-490-8130, ext. 1036.
